Rheumatism and Neuralgia

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure. But there is a remedy. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—no matter how long they have lasted. It is a powerful blood purifier and a powerful nerve tonic. It is a powerful blood purifier and a powerful nerve tonic. It is a powerful blood purifier and a powerful nerve tonic.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatism."—J. H. HARRIS, Minneapolis, Minn.

WAY OUT IN ALASKA.

How a Tenderfoot Bought Gold in Our Arctic Territory.

Recent Romance of Boundless Wealth and Magnificent Scenery, and the Stern Reality of Bacon and Beans—An Hospitable Indian.

A writer in the Juneau City Mining Record gives a graphic description of experience while in the recent prospecting tour in Alaska. On the morning of July 9, he says, we left Douglas City on the favorite and fast-sailing canoe Hawk, Captain Jim (both well and favorably known in Alaskan waters) for a prospecting trip in Lynn Canal. As the day was fine and the wind fair, the sail-boat was soon under way.

The Indian who accompanied us is a fine specimen of his race; he stands over six feet in his bare feet, and weighs over two hundred pounds. He is a Mormon in proclivities, for he has a number of wives, who appear well satisfied with him as their lord and master, and I could see no sign of the green-eyed monster. He is a bear hunter by occupation, and an enthusiast in that line, and many were the stories and hair-breadth escapes he related. I can well believe he is a good hunter, as his ladder is well stocked with fish, flesh and fowl; his wives were brown, fat and glossy; his dogs, of which he had seven, were all in splendid condition, and that is more than can be said of most Indian dogs. He told us the many wounds he had received in his encounters with bears. He also showed us the hole where he buried the bears' heads, and there must have been twenty skulls in it. I inquired of him why he did so, and he told me: "Bear all same Indian; by and by he goes to the happy hunting ground."

As a host he is a prince, and right royally he treated us to all kinds of game and right royally he treated us to all kinds of game and right royally he treated us to all kinds of game.

He had other places he wanted to show us, and we would have gone with him, but the party had an acute attack of inflammation of the lungs, and he was obliged to stay in bed.

The next day we traveled against a head wind and a terrible rain, and after getting drenched to the skin we camped. It would be very pleasant prospecting in Alaska were it not for the rain, head wind and tales, thick brims and mosquitoes, and a few other little inconveniences. Then, again, if I was looking through a tourist's eyes from the deck of an ocean steamer, how romantic the majestic mountains and rivers, hundreds of miles of pine-clad shores, and every now and then a vast glacier. Then in smooth, narrow channels can be seen the mammoth whale, forging his way along nearly as fast as the steamer, and every few feet can be seen the shining silvery sides of a beautiful salmon, darting, or trying to escape from some fishy monster who is trying to catch him for a meal. I saw a seal bubble one in less than two seconds. To me the animals on such a trip remind me of a great menagerie, without having to pay at the door, while the waters are a grand aquarium; and take it altogether, were it not for the stormy weather, it would be a most interesting tour in Alaska, like visiting an ever-changing panorama.

An effective method of petrifying animal bodies was claimed by Dr. U. B. Nason, a dentist, who died more than forty years ago. The secret of this process was left to his legitimate heirs, who have recently been found. The discovery so long looked up is now eagerly sought, and large sums have been offered for it—thus far unsuccessfully.

Subscribers who do not receive the GAZETTE promptly will confer a favor by letting this office know at the earliest possible moment. All papers are carefully done up in wrappers, plainly marked, and mailed regularly.

THE Salt Lake Tribune does not see why the question of how German-Americans would stand, in case of a real war between Germany and the United States, was ever asked. The Germans have much pride and many holy recollections of Fatherland, but the great majority of those in this country came here poor; from a land where the young men are all subject to conscription; where the utmost energies of an industrious man point, as a rule, to little more than a living, they reached a country whose ample fields and full opportunities are open to them, and in that field they have reached a plane that they could never have dreamed of reaching had they remained away. They love their children better than Fatherland, and while they would bewail any sorrows that might come to their first homes, they would offer their lives to keep any real sorrows from their adopted homes.

THERE is no more shameful chapter in the history of diplomacy than that of our relations with Germany in this Samoan matter, and there is little hope that we can extricate ourselves from the mortifying situation created by the stupid and spineless policy of a Democratic Administration until it is succeeded on March 4th by one that will be resolute and thoroughly American.

The Truckee Lumber Co. will sell all of its property in and around Truckee to this county for \$200,000. THE GAZETTE does not believe that Washoe County cares to go into the lumber business, and unless it does the water rights are not worth that amount of money.

CERTAIN sawed-off legislators are simply making themselves ridiculous by passing an idiotic bill attacking the style of hats being worn by ladies. A more reasonable thing for the shortsies to do would be to have their pants padded so as to elevate them as high as a medium sized woman.

"SECRETARY ASPEN LEAF," is the contemptuous title bestowed upon the Democratic Secretary of State by the Democratic Atlanta "Constitution."

THE bill which makes carrying on of stud-horse poker and hoky-poky games a criminal act passed the Assembly yesterday.

THE GAZETTE late this afternoon received the President's message on the Samoan question, but too late for publication.

AN exchange says there is but one just punishment for men who corrupt the ballot. That is disfranchisement for life.

Nearly a Certainty.
INDIANAPOLIS, Feb. 1.—There is scarcely any doubt but California will be represented in the Cabinet, and it is claimed equally certain that Estee will be the chosen man, but instead of being made Secretary of Interior, it is probable, according to the latest trustworthy information, that he will be made Attorney General.

Arrested for Perjury.

[ASSOCIATED PRESS DISPATCHES TO THE GAZETTE.]

Strikers Weakening.

NEW YORK, Feb. 1.—In the great street-car tie up, it is indicated that the roads are gaining ground and the strikers losing. The roads all give notice to their old employees that unless they return to-day they will be discharged. Judging from the applications for work by the old hands yesterday, many of the strikers are weak. It is expected that all the lines will run cars to-day, some of them a full complement.

The Sixth Avenue road claims to have a full complement of men, and are turning away applicants. The Broadway and Seventh Avenue road also claims to be turning away men. At midnight some drunken strikers tried to tear up the track at 47th street, but were driven off by the police. No arrests were made. A placard was posted last night near Broadway station, reading "Be on hand to fight the scabs and policemen to-morrow." Eighth Avenue has not yet run any cars, and the Bell line will not start until police protection is assured. This will be done by concentrating the force as soon as the other lines are set running.

At noon to-day the state of affairs on the East Side seem to indicate that the backbone of the strike is broken. All the companies who braved the strikers on the first day and night had their roads in almost complete running order to-day, without any efforts on the part of the strikers to prevent them. The Fourth Avenue and 42d street and the Dry Dock lines are running with an increased number of cars.

BROOKLYN, Feb. 1.—Four cars were run this morning under police protection without interference. Some rails were found torn up on Fifth avenue. A committee called on President Richardson this morning, but nothing came of it. The report that lines owned by other companies would be tied up this morning proved untrue; the men will remain at work to help the others financially. The same credence is given to the report that Richardson brought about the strike to procure all the stock in the road, and allows the tie-up to go on to secure a large sum in damages from the city. A committee of South Brooklyn residents will institute a suit to compel him to run his cars. He laughs at this.

French Politics.

PARIS, Feb. 1.—The general impression is that the Chamber of Deputies will complete its legal form of office, and that a general election will not be held until October. The majority of the vote expressing confidence in the Government yesterday was composed of Republicans altogether. The minority included 169 members of the right, fourteen Bonapartists and fifty-three Republicans. The Radical journals congratulate the members of that party that a crisis has been avoided. They claim that the ministerial question was solved by the vote. The Opportunist organs declare the Government has been merely respite for a few days, and the Bonapartist papers consider the Government lost.

Canadian Emigrants.

INDIANAPOLIS, Feb. 1.—John E. Sullivan, who failed for \$75,000 on Thursday, is missing, and with Tom O'Neil, his confidential clerk, is supposed to be in Canada. It is discovered that he issued fraudulent warehouse receipts for large consignments of poultry, produce, etc. The aggregate is not known, but one person holds \$9,000 of them.

A Proposed Fight.

CINCINNATI, Feb. 1.—Last Tuesday night, at Jack Dempsey's request, a telegram was sent to the California Athletic Club, asking if they would guarantee a purse of \$5,000 for a fight with Dominic McCaffrey at San Francisco. The reply from the Secretary of the Club says the directory of the club at an early meeting, will answer the question.

Business Increasing.

LAKED, Texas, Feb. 1.—John F. O'Brien, general manager of the Mexican National Railroad, states that traffic is increasing so rapidly on his road that he has been obliged to order fifteen new locomotives and five hundred additional freight cars.

More Visitors.

INDIANAPOLIS, Feb. 1.—Senator Sablin of Minnesota and Col. George R. Davis of Illinois arrived this morning and spent several hours with Harrison. The object of their visit was not made public.

A Case of Suicide.

VIENNA, Feb. 1.—It is officially announced that Crown Prince Rudolph committed suicide by shooting himself in the head with a revolver.

The Wiener Zeitung says that Professor Wiedenhof, who performed the autopsy on the remains of the Crown Prince Rudolph, found a large wound in the side of his head which must have caused instant death. A revolver with one chamber discharged was found on the bedside, close to the right hand of the dead Prince, and the position in which it was found proves, beyond a doubt, that the Prince committed suicide. The skull bone was partially shattered. During the last few weeks the Crown Prince manifested signs of morbid nervous excitement, therefore, the Wiener Zeitung says, the view that the shooting was the result of temporary mental derangement, must be adhered to. Some time previous to his death, the Crown Prince complained of headaches, and attributed it to an injury in the head, which he sustained by a fall from his horse last autumn.

The only letter left by the Crown Prince, was one addressed to his mother.

ST. PETERSBURG, Feb. 1.—All the court festivals are postponed, in consequence of the death of Crown Prince Rudolph. The Official Messenger published a black-bordered article on the death of the Prince. The Journal De St. Petersburg deplores the cruel loss that Russia, whose Imperial house is united to that of Austria by personal ties of friendship, has sustained.

LONDON, Feb. 1.—The Pall Mall Gazette says it is privately informed from Vienna that Rudolph committed suicide because it was optional with him to take his own life or fight a duel with a brother of a Princess who is a member of one of the highest Austrian families, and whom he had seduced. When concealment was no longer possible, the Princess confessed her shame to her brother, who gave Rudolph the alternative mentioned. The Pall Mall Gazette further says that the doctors summoned refused to sign a certificate to the effect that Rudolph's death was due to apoplexy, and that a great scene ensued. One doctor told the Neue Freie Presse the real fact, which that paper published.

Congressional Matters.

WASHINGTON, Feb. 1.—SENATE—A message from the President, vetoing the bill granting a pension to Mrs. Ellen Hand, was presented and laid on the table. The ground of the disapproval is that "the soldier's death in no way related to any incident of military service." Platt said he might have some remarks to submit on the subject.

The House amendments to the Senate bill for the admission of South Dakota were non-concurrent in, upon the report of the Committee on Territories, and a conference asked. Saulsbury offered a resolution, agreed to, instructing the committee on Foreign relations to inquire into the condition of affairs in the Samoan Islands and report at an early day, what measures are necessary to protect the interests of American citizens therein, and to discharge any obligations of the United States to the people of those Islands in maintenance of their own local government from the interference of any foreign power, and to secure the just rights and interests of the United States in the future control and government of those Islands.

HOUSE.

The House passed the Oklahoma bill.

A Persian Railroad Scheme.

BANGOR, Maine, Feb. 1.—Frank H. Clergue of Bangor has petitioned the Legislature for charters for the "Bank of Persia and a Persian railway company," to operate railways, electric lights, telegraph lines and steamboat lines in Persia, and between Persia and other countries. It is reported that Clergue and his American associates have arranged with the Shah to undertake a contract with the Shah offered to one of the Vanderbilts long ago. It is said that two of the richest railway men in Maine, one of whom is General Arthur Sewall of the National Democratic Committee, are going in with Clergue. The proposed roads will extend from Teheran to the Persian gulf.

A Feverish Feeling.

DUBLIN, Feb. 1.—O'Brien slept upon a plank bed without clothing in his cell at Clonmel last night. This morning he was more composed and appeared recovered from the effects of his struggle with the wardens. The shutters upon the most of the shops in Clonmel are closed, the shop-keepers fearing trouble.

Some Signs of Life.

SAN FRANCISCO, Jan. 31.—A published statement is made here this afternoon that the Union Iron Works have received a dispatch from Secretary Whitney ordering them to get the new cruiser Charleston ready for sea within twenty days, if possible, at no matter what extra cost.

Accident or Suicide.

STRAVBOTH, Ont., Feb. 1.—Rev. Arthur Cornyn was found dead in his study to-day, with a bullet hole in his head. It is not known whether it was an accident or a suicide.

A Tangible Proposition.

WASHINGTON, Feb. 1.—The Washington News says the recent action of the German forces at Samoa has given rise to a commotion among members of the House, and much indignation is felt at the announcement that the Germans intend to search vessels arriving at Samoa. Representative Thomas of Illinois, a particularly active and influential member of the Committee on Naval Affairs, has prepared a resolution which will be presented to the House at the first opportunity.

WHEREAS, from the reports transmitted to Congress by current newspaper accounts, the rights of American citizens at Apia have been grossly invaded, and the commercial interests of the United States jeopardized by the action of the German Government through its naval possession of the Samoan Islands; and

WHEREAS, the late newspaper dispatches show that steps have been taken looking to the acquisition of the Samoan Islands by the German Government, in violation of the rights and integrity of a Government with which the Government of the United States holds treaty and commercial relations, and in violation of the treaty rights of the United States, therefore be it

Resolved, by the Senate and the House of Representatives of the United States in Congress assembled, that the President be hereby authorized and directed to take such steps, forcibly if deemed expedient, necessary and proper to protect and maintain the honor, dignity and interests of the flag and Government of the United States and its citizens, who ever disposed, against the acts of the Emperor of Germany or his forces.

Arrested for Attempted Black-mailing.

TOPEKA, Feb. 1.—W. T. Cavanaugh, Assistant Secretary of State, was arrested yesterday on a charge of attempting to blackmail State Printer Baker out of \$6,000, by threatening to have his fees cut down by the Legislature.

A Rumor Contradicted.

LONDON, Feb. 1.—The Globe says it is authorized to contradict the rumor of the death of the King of Holland.

This is the season of the year when the raw, cold winds create and have with the hands and complexion, soft white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dandelion's Specific. It rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Pinniger.
